Security Services

We protect your home, business or property from unwanted intrusion. Our range of security solutions starts from providing trained security guards to installing access control technologies, cameras and alarm systems.

Our security personnel are Dubai Police Academy trained or have a military/police background and clean records. They come with clearance from local law enforcement authorities.

All of them receive training in first aid, fire fighting, CCTV/DVR operations and other security basics before they are sent out for active duty. Libra's security services are available 24/7 and we even provide emergency assistance with minimal loss of time.

Life Guard Services

Be it at the beach or pools, you will be safe and secure with our lifeguards present. They are all certified by Dubai municipality's Public Health and Safety Department.

Qualified in life saving and first aid, they are trained to prevent accidents from happening and to respond immediately in emergencies. Most times a lifeguard's job is preventive; all the same, we ensure that our lifeguards are physically fit and motivated.

Libra lifeguards are well aware that theirs is a serious job that requires alertness and dedication.
